PROVINCE OF PRINCE EDWARD ISLAND

INTRODUCTION

The 2015-2016 Estimates represent the financial plan of the Province for the Fiscal Year commencing April 1, 2015, and are presented by the Government in support of its request to the Legislative Assembly for authority to spend public monies. This request is formalized through the tabling of the *Appropriation Act (Current Expenditures) 2015*.

Estimates for departments are reported on a gross expenditure basis. Corresponding revenues are deposited in the Operating Fund. Crown corporations that rely on Government for most of their funding are reported on a net expenditure basis within their respective ministries. Crown corporations that operate as Government Business Enterprises and other Consolidated Agencies report on a net surplus or deficit basis. (Refer to Page 12)

The Estimates and Minister's Budget Address, along with subsequent reporting of financial results in the Public Accounts, assist the Legislative Assembly in holding Government accountable for the allocation and management of public funds.

The 2014-2015 Estimate and Forecast have been restated for comparative purposes. (Refer to Appendix III)

GLOSSARY

Amortization

Amortization expense is the periodic allocation of the cost of a Capital Asset over its useful life. The Province has implemented the straight-line method of amortizing Tangible Capital Assets, which allocates the annual expense in equal amounts over the estimated useful life of the asset.

Capital Revenues

Capital Revenues are recognized in the Current Account in accordance with standards from the Public Sector Accounting Standards Board.

Consolidated Surplus (Deficit) of Crown Corporations

This summary includes Crown corporations whose results have not been incorporated into the line-by-line detail of the Budget Estimates. Several Crown corporations, such as Island Waste Management Corporation and Prince Edward Island Liquor Control Commission, are Government Business Enterprises which, by definition, do not rely on Government funding to maintain their operations. In accordance with accounting standards, only their net consolidated surplus or deficit is reported in the Province's financial statements.

The remaining Crown corporations and reporting entities receive substantial support from Government. The funding requirement for these reporting entities is included in a departmental appropriation.

Current Account

The Current Account represents the largest part of Government expenditures and includes the day-to-day operational costs. More specifically, it includes salaries, supplies and operating grants for various programs and organizations in Government.

Deficit

A deficit occurs when expenditures exceed revenues for a Fiscal Year.

PRIMARY EXPENDITURE ACCOUNTS

The primary expenditure types set out in the Chart of Accounts and used in this document are listed below. The examples of expenditures included in each primary type are not intended to be all inclusive, but do represent the main items.

- (b) *Debt* debt service costs, bank charges and fees related to debt instruments.
- (c) Equipment office equipment, computer equipment and field equipment that do not meet the definition of a Tangible Capital Asset.
